

Metamorph[®]

Whether you live in Poole or Park Lane, bay windows pose a problem when it comes to using curtain poles. To date, the choice has been limited to using track; metal poles, bent to fit, were the next option. But if you are looking for the warmth, solidity and choice of finishes that a wooden pole offers, what can you do?

Byron & Byron have come up with an idea which solves the problem with **Metamorph[®]**. This wooden pole is fitted with a patented joint that gives a continuous line, enabling the rings to slip along the pole as smoothly as if it were straight.

Metamorph[®] comes in 43mm, 55mm and 67mm diameters and can be matched with 40 different styles of finial and 80 different finishes.

Metamorph[®] is available from September 2005. The recommended retail price starts at around £ 600. Please telephone Byron & Byron on 020 8344 7979 for stockist details.
